Rogers says: This year's team is returning two starters but a total of five girls from last year's team. The girls have worked hard and are very eager to begin the season. We have more experience returning this year than last. This experience will help to get the new girls acclimated to the varsity level.

We have some athleticism and players who will be able to play multiple positions and provide us with flexibility. We are going to look to apply pressure to try to create some easy scoring opportunities. I feel our depth will allow us to accomplish this. I know the girls will play hard every game and they are excited to get the season started.
